

VITAX SPREADER SETTINGS

Scotts Accupro 2000 / SR-2000

Longlast	-	20g/sq.mtr Single pass with 2 mtr swath Gate Setting L Cone Setting 8
Lawn Sand	-	35g/sq.mtr Single pass with 1 mtr swath Gate Setting J Cone Setting 8
Microbial K Microbial N Microbial Potash +	-	70g/sq.mtr Single Pass with 1 mtr swath Gate Setting N Cone Setting 5
MicroGran 4	-	35g/sq.mtr Single Pass with 2 mtr swath Gate Setting M Cone Setting 8
Ultraflo Granular	-	30g/sq.mtr Single Pass with 1 mtr swath Gate Setting H Cone Setting 8

Note: Swath width refers to distance between each pass of spreader. Actual spread of fertiliser was twice this width. This overlap ensures more even application.
