Extinguishing media	Foam, carbon dioxide (CO ₂) dry powder or water fog extinguishant.
Extinguishing media to avoid	Strong water jet.
Special exposure hazards	The normal granular product does not produce dust clouds, however dust clouds of smaller particle size material will be flammable. See also Section 9. Fine particle dust clouds can produce violent dust explosions if ignited (ST 2). Keep fire exposed containers cool by spraying with water.
Protective equipment	Wear full protective clothing and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	Ensure suitable personal protection during removal of spillages. This means wearing eye protection, chemically resistant gloves, boots and coveralls. See also Section 8.
Clean up methods	Cover spillage with moist sand, soil or sawdust. Transfer to a container for disposal. Wash the spillage area with water. Washings must be prevented from entering surface water drains.
Environmental considerations	EXTREMELY DANGEROUS TO FISH OR OTHER AQUATIC LIFE. Do not contaminate surface waters or ditches with chemical or used containers. Spillages or uncontrolled discharges into water courses must be alerted to the appropriate regulatory body.
